

Welcome to First Grade!

The main focus of my classroom is teaching the Word of God and making sure the students know about God's love. Their behavior should reflect that love as they work with their classmates and teachers.

First Grade is a time where reading seems to skyrocket. Most will come in with knowledge of the alphabet letters and sounds. From there, the reading takes off as the students become independent readers. It is a very exciting time. The same can be said for math. Our curriculum also includes science, social studies, health, grammar, physical education, music, handwriting, art, and spelling.

Every student is precious in God's eyes. Their thoughts and feelings are to be highly regarded. It is my prayer that when they enter my classroom, they understand that I will keep them safe and love them just the way they are.
